

camRade rainCover OB/EFP Large

Name: camRade rainCover OB/EFP Large

SKU: CAM-RAINCVR-OBEFP-L

EAN-13: 8718591673375

Short description

Universal protection for a wide range of outside broadcasting cameras using a large lens adaptor, viewfinder, and viewfinder sun hood. Includes a water-resistant storage pouch.

Long description

Through years of experience and working closely with camera operators from broadcast and production companies, we have improved the designs to perfect solutions for multiple applications.

Protect outside broadcasting cameras against inclement weather with the rainCover OB/EFP Large. With this raincover for large set-ups with live production system cameras, you can now protect your equipment from the elements without sacrificing your shot. The rainCover OB/EFP Large is suitable for system cameras, attached on a tripod, pedestal, or any other camera support solution.

The flexible black fabric helps the camera not to stand out in a crowd. The cover is perfect for use during both indoor and outside broadcast productions like sports, entertainment, festivals, religious gatherings, and other large events.

The cover closures are all with hook and loop fasteners. This allows for a firm fix while still having the flexibility to adjust it to the width and length of your specific set-up.

Durable and functional design

Always take the camRade rainCover OB/EFP Large to outdoor events, so you do not get caught out when the weather turns. The cover is supplied in a waterproof zippered pouch, which you can use to store and transport the cover. It is easy to attach and detach the cover, thanks to the convenient design. Leave the bottom open for easy access or close again if the wind plays tricks.

Clamps around the lens hood

The one-piece rainCover closes around the lens with a rubber strip for a good seal with the camera. The vinyl window in front of the lens can be secured with hook and loop fasteners on top when not in use.

Why camRade?

camRade was established in 1998 and has an extensive track record of protecting broadcast and film cameras. Since the start of camRade, the team of people behind the brand have continued to work closely with several audio and camera operators, broadcasters, and rental companies. Today we can say that we are the recognised world leader in camera protection.

Why do I need a camRade rainCover?

Imagine how you would feel if your camera stopped working. A camera with water damage could be considered a total loss if the repair costs are too high. What if you could have prevented this by using a camRade rainCover? Your camera is often your most valuable piece of equipment while gathering news or during field productions. The durability and unique features of the rainCover OB/EFP Large will protect your investment in a way that plastic bags and other cheap covers cannot.
